

Michelle Liu

Sydney / Beijing | mmmmmichelle.liu.m@gmail.com | +61 423 655 077 | Chinese nationality | English fluent (TOEFL 110+)

TARGET PROFILE

Finance, business analysis and data analytics candidate with experience in securities research, policy-oriented sustainability analysis, audit/accounting workpapers and Python-enabled data processing. Strong fit for AIIB Risk Research through structured document review, country/case and timeline mapping, stakeholder analysis, financial-policy interpretation and concise written reporting. Academic study in International Financial Crime supports understanding of cross-border financial risk, compliance, creditor coordination and institutional risk responses.

EDUCATION

- Master of Data Analytics** | The University of Sydney Sep 2025 - Dec 2026
 - Relevant study: Machine Learning, Quantitative Business Analysis, analytical programming, data processing and reporting.
- Bachelor of Commerce, Finance & Business Analysis** | The University of Sydney Sep 2022 - Jul 2025
 - Average mark: 76/100; Business School scholarship recipient. Relevant coursework: International Financial Crime, Derivative Securities, Corporate Finance, Accounting and Intermediate Microeconomics.
- Exchange Program** | Shanghai Jiao Tong University Dec 2023 - Jan 2024
 - Portfolio Management: 90+; Elements of Data Processing: 90+.

CORE SKILLS

- Risk and policy research: structured review, case comparison, timeline synthesis, stakeholder mapping, evidence triangulation and concise briefing-note writing.
- Finance and compliance: corporate finance, securities research, audit support, financial crime risk, AML/CTF concepts, cross-border regulation and institutional governance.
- Data and reporting tools: Python, SQL, R/RStudio, STATA, MATLAB, Excel/MOS and Xero; data cleaning, validation, automation, dashboard-ready analysis and PowerPoint reporting.

PROFESSIONAL AND RESEARCH EXPERIENCE

- Research Intern, Green Technology Transactions and Data Governance** | National Green Technology Exchange Center, Beijing Nov 2025 - Feb 2026
 - Conducted structured research on AI-enabled green technology transaction matching, covering demand identification, supplier matching, transaction mechanisms, data governance and trustworthy matching logic.
 - Mapped the platform ecosystem across technology suppliers, demand-side organisations, financial institutions, industrial parks and regulatory actors; translated complex stakeholder relationships into internal research materials.
 - Prepared analytical summaries on data standards, matching algorithms, trust mechanisms, Steinbeis-related materials and compliance constraints for internal reporting and future project planning.
 - Built an analytical framework for zero-carbon industrial park development, linking demand-side pain points, technology supply, transaction mechanisms and implementation pathways.
- Research Intern, Coal and Power Department** | Shanxi Securities Research Institute, Beijing Nov 2023 - Mar 2024
 - Collected, cleaned and analysed multi-year coal accident and industry data in Excel to support sector research, risk monitoring and evidence-based reporting.
 - Prepared research inputs for an Indonesia coal report by analysing domestic/international coal prices, policy changes and market implications; produced daily industry news summaries and analyst-meeting notes for China Shenhua and Henan Energy.
- Accounting Analyst** | Forcity Investment Group, Sydney Sep 2025 - Nov 2025
 - Analysed project-level costs, expenses and input-output performance across subsidiary projects; prepared structured financial schedules and variance observations for management review.
 - Reviewed whether additional project expenditure should continue based on cost evidence, project progress and expected return logic.
- Accounting Intern** | Australasia International School, Sydney Feb 2025 - Jul 2025
 - Used Xero to record tuition transactions, complete FY2023/FY2024 bank reconciliations and prepare supporting workpapers for audit review.
 - Maintained organised transaction records and reconciled accounting evidence to improve audit readiness and reporting accuracy.
- Audit Intern** | Daxin Accounting Firm, Beijing Jun 2024 - Jul 2024
 - Supported the audit project of Beijing Haidian Science and Technology Park Construction Co., Ltd. through document checking, audit evidence organisation and financial record verification.
- Data Processing Intern** | Environmental Defence Fund, Beijing Jul 2023 - Aug 2023
 - Cleaned, validated and identified abnormal values in multi-source environmental datasets for a Yellow River governance project, including water-quality and soil-related indicators.
 - Produced visual analytical outputs and policy/material summaries to support ecological governance, regional development analysis and preliminary policy evaluation.

SELECTED PROJECTS AND LEADERSHIP

- Beijing Regional Champion** | EY x Gordon ESG Business Race May 2024 - Jun 2024
 - Designed an ESG business proposal on AI, social responsibility and sustainable consumer behaviour; led the data collection and analysis module using consumer insights, market trends and business-model evidence.
 - Integrated supply-chain considerations, carbon-footprint management and feasibility logic into the final proposal, presentation and defence with a cross-university team.
- Participant, Sustainable Product Innovation** | Unilever China Sustainable R&D Innovation Competition Jul 2024 - Sep 2024
 - Analysed consumer use scenarios and product pain points to identify improvement opportunities in environmental performance, user experience and packaging materials.

- Designed a user-feedback collection process and organised online consumer data into a prioritised list of product optimisation needs; assisted with R&D/marketing feasibility tracking.
Participant, Beauty Market Strategy | LVMH Beauty Campus Creative Challenge Jul 2024 - Sep 2024
- Conducted user-profile and competitor strategy analysis for campus beauty product positioning; developed user segmentation, KOL collaboration ideas and differentiated competitive strategies.
Chairman | Chinese Language Debate Club, University of Sydney Sep 2022 - Sep 2025
- Led club operations and represented the University of Sydney Chinese Debating Society; 2024 Planet Cup finalist, strengthening public speaking, argument structuring and high-pressure Q&A capability.
